

Project Title:

MITEI Sponsor: MIT Energy Initiative Energy Seed Fund Program

Investigators:

Proposed Project Period:

Start Date:

End Date:

Terms of our MITEI Agreement require that MIT identify in advance any third party(ies) anticipated to be a source of support for the proposed project and negotiate any necessary special terms and conditions to be applied to the project to accommodate this support and eliminate any potential conflict in MIT IP and other contractual obligations to the MITEI Sponsor and any other funding source(s). These steps must be completed before the final funding decision can be made by the MITEI Sponsor and the project can begin.

MIT PI, Co-Investigator(s), and Collaborators: Please respond to the following questions; a separate form must be submitted for each individual, for each proposal. **Note:** You must advise the Technology Licensing Office of any changes to your responses after this form has been filed.

- 1) Do you have or anticipate any other source of external funding for this project? (Note, this includes U.S. government funding.) List source(s) of additional support.

☐ Yes

☐ No

- 2) Do you have or anticipate any other obligations (obligations associated with the use of incoming software, data, materials, equipment or fellowship support) that might require any intellectual property rights arising from this project?

☐ Yes

☐ No

Submit completed questionnaire online with your full proposal at:
<https://form.jotform.com/233317524688160>

- 3) Do you have any other sponsors, startups, consulting relationships, or other relationships that Project Sponsor could reasonably consider to be competitive or in conflict with the research described in this proposal? Please describe briefly:

☐ Yes

☐ No

- 4) Do you have any existing or soon to be disclosed IP that is related to this proposal?

☐ Yes

☐ No

- 5) Output: What is the anticipated output of this project and what form will it take, i.e., knowledge, a model, software, a design, other?

To the best of my knowledge, the responses to items 1-5 are accurate and complete.
